«KEEP AWAY FROM CHILDREN»

DRAGON SNAKE

**Repellent for pets (dog, cat) and snakes,
lizards and other reptiles.**

**It has a preventive action to reptiles from entering an area and
it is repressive as it removes those that are already in the area.**

How to apply:

Repellent for snakes, lizards and other reptiles.

Wear gloves, open the packaging container by removing the lid, keeping it away from your face.

The preparation is applied by spreading on the ground around the area (tents, warehouses, residential areas) that you want to protect, forming a line.

Spread the product evenly on the surface (stones, soil, etc.) creating a line about 3-5 cm wide, around the area you want to protect from snakes and other reptiles.

The grains must be visible on the surface of the soil and not protruding into it.

Application of 1 kg of product for every 60-80 meters of line.

Prior to application, the area is inspected to remove any trapped snakes.

Its action lasts 3-4 months. In case of rain, repeat the use.

Wash your hands after use.

Field of application	Targets	Doses	Application time
Outdoors	snakes, lizards e.t.c. reptiles	1.000 / 60-80m of zone	Throughout the year

Temporal stability of the preparation:

In its original closed packaging, in a cool and dry place, it is kept stable for three (3) years from the date of manufacture.

THE INFORMATION WRITTEN IN THIS FORM HAS AN INFORMATIONAL CHARACTER AND DOES NOT SUBSTITUTE IN ANY CIRCUMSTANCES.
